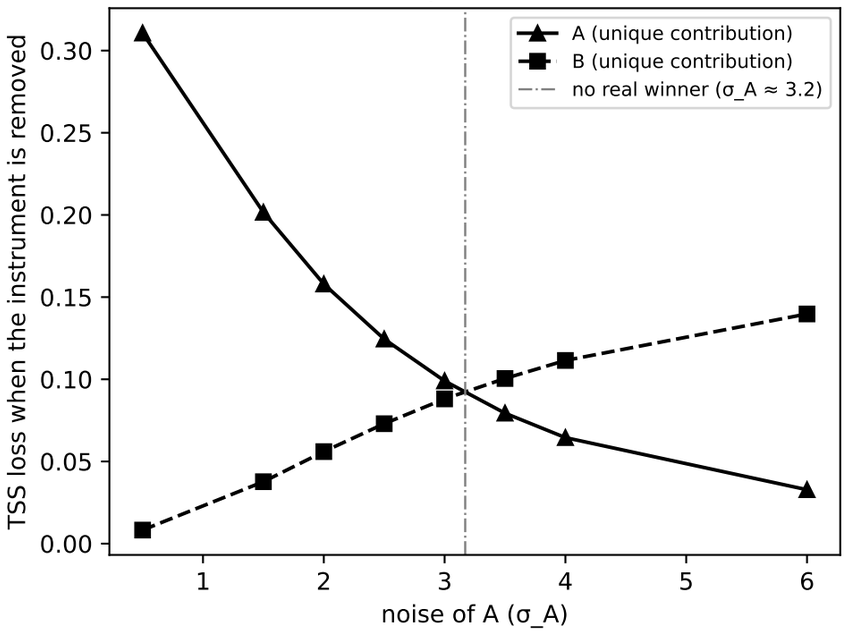
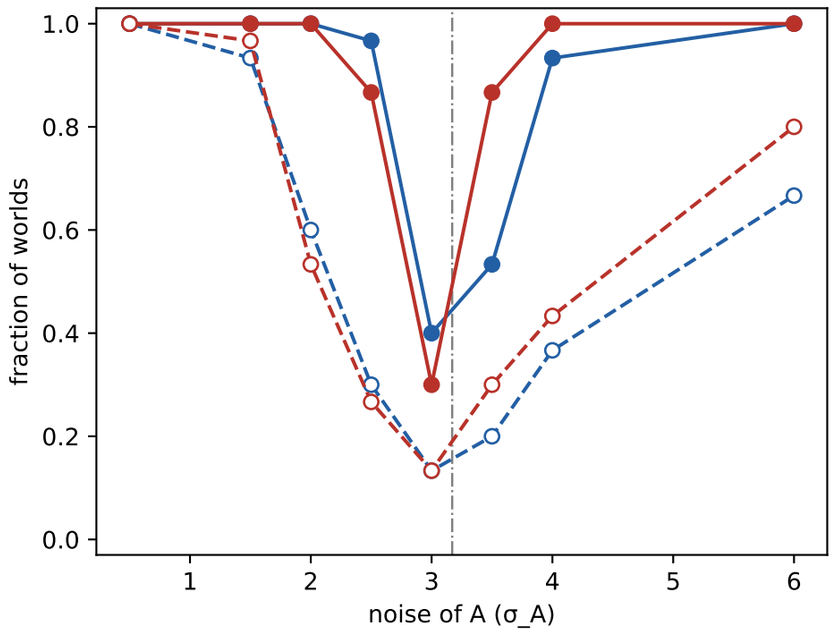
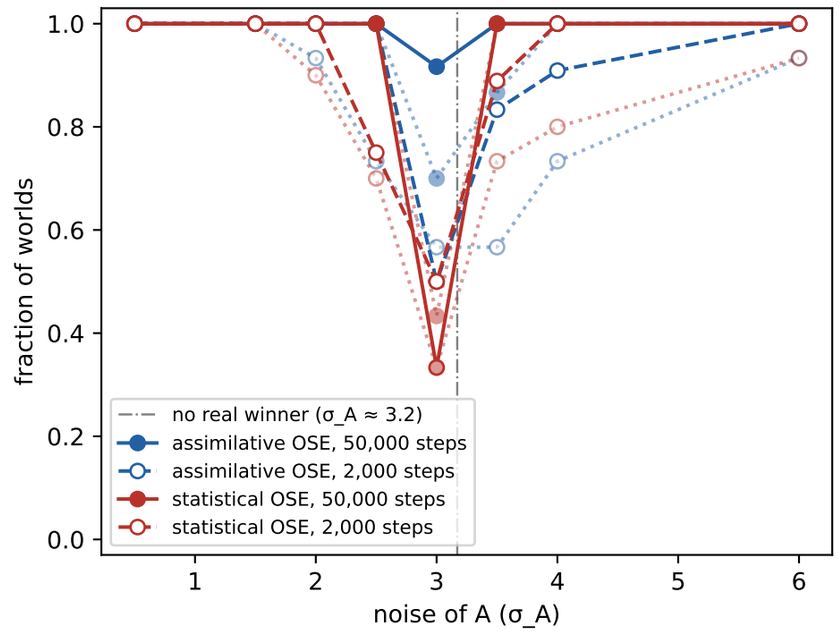
Step 1a truth



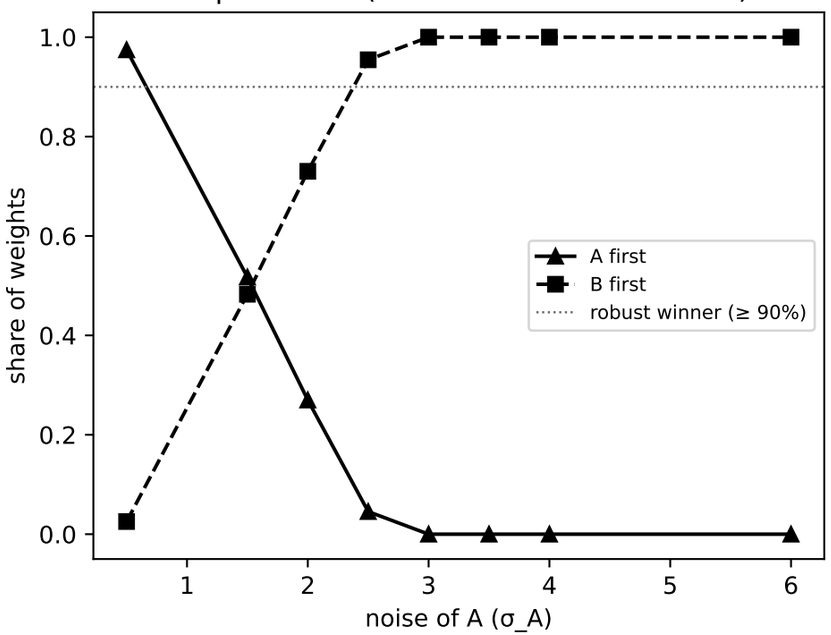
Step 1a: our method names a winner
(the standard always does)



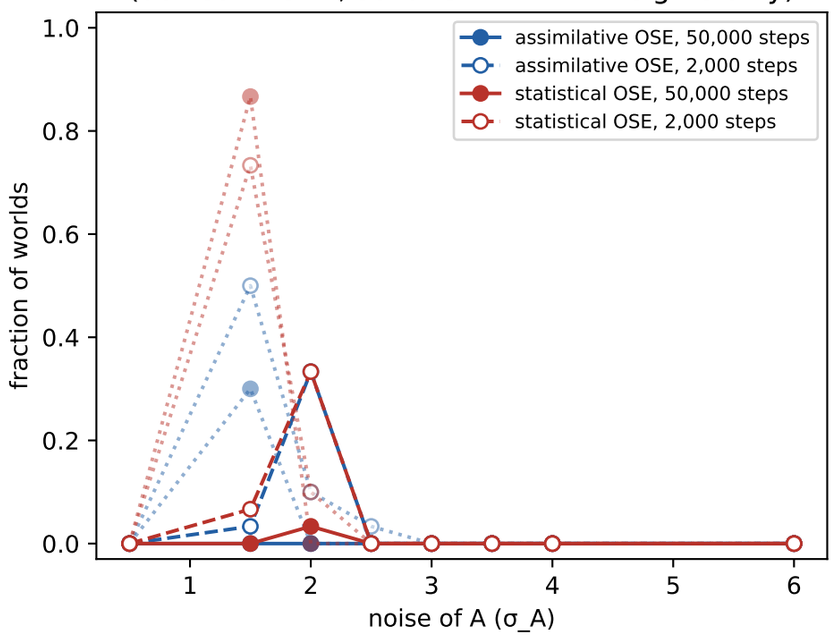
Step 1a: right when it names a winner
(dotted: standard, solid: ours)

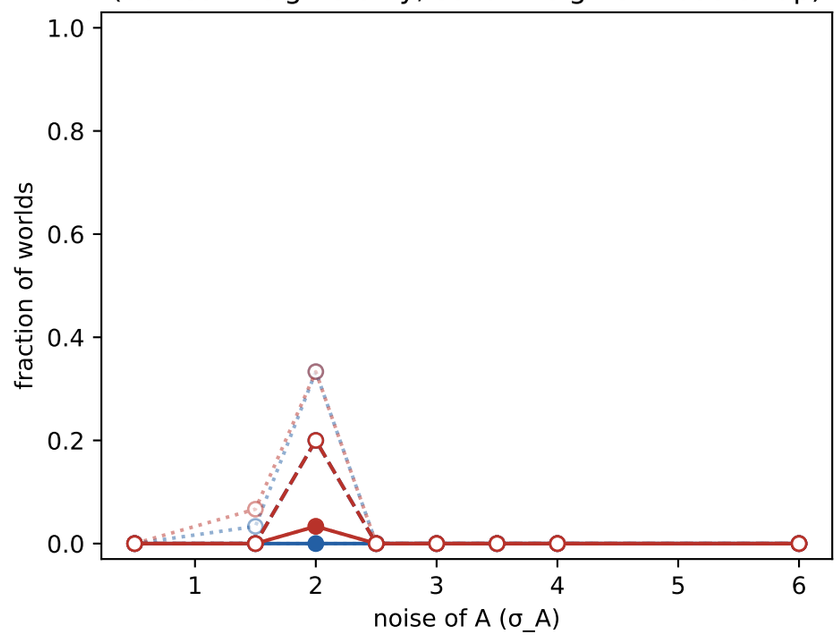


Step 1c truth (SMAA on the true criteria)



Step 1c: wrong claim
(dotted: MCDA, solid: SMAA with weights only)





Step 1c: wrong claim of a robust winner
(dotted: weights only, solid: weights + bootstrap)
